

Linux-Actual Budget

Task

`task_id:linux.actual_budget.household_budget_setup_hard`
Platform: Linux
App: Actual Budget

Task instruction

Actual Budget is already open. If no budget file is open yet, create a new local budget called `Bench Household Budget` in the default documents location. Then set up a household budget with:
... - Twelve payment transactions across the created accounts ...
Finish only after all twelve transfers are recorded.

Linux-Blender

Task

`task_id:linux.blender.prepare_social_render`
Platform: Linux
App: Blender

Task instruction

In Blender, open the prepared product stage scene and update it into a social-preview render setup. The task is the richest Blender instruction example among the PASS Blender tasks. Main requirements from the current task document:
.....
- `social\_render\_bundle\_index.txt`
