

Linux-LibreOffice Calc

Task

task_id:

linux.calc.freeze_header_range

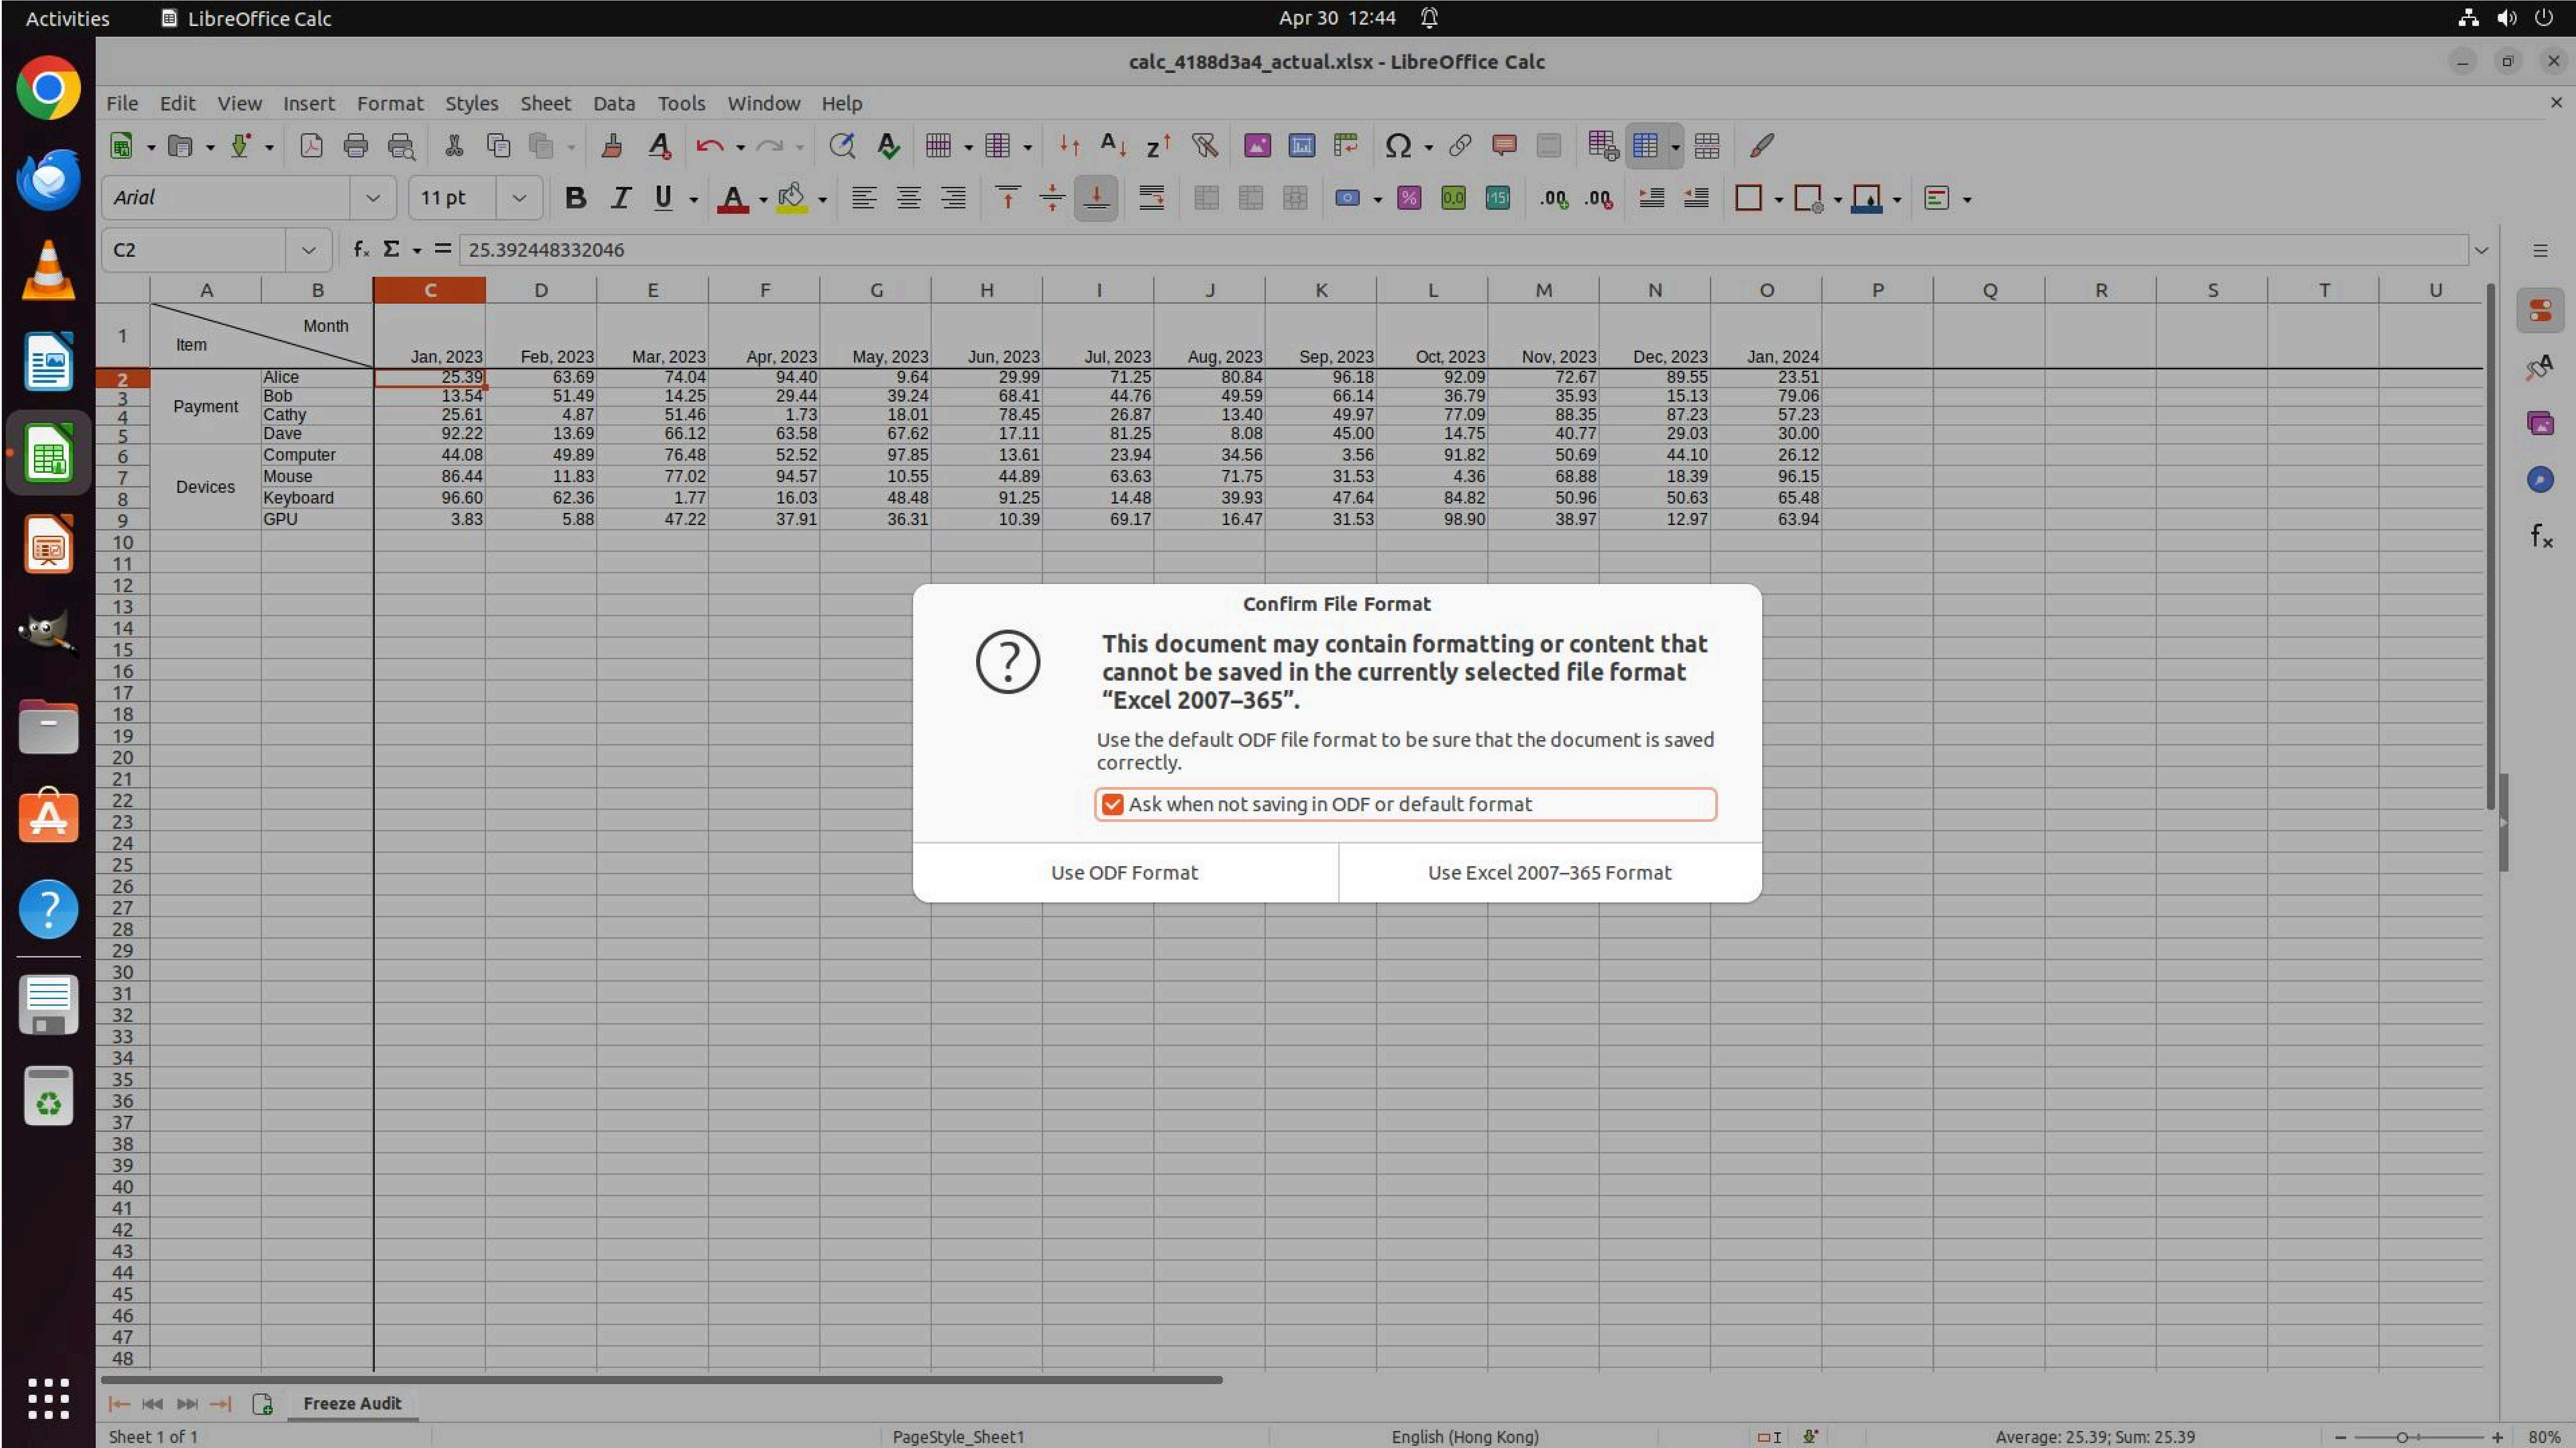

Platform: Linux

App: LibreOffice Calc

Task instruction

The spreadsheet is already open in LibreOffice Calc. Complete the workbook setup and audit delivery:

- Freeze the range `A1:B1` so the headers remain visible.
-
- Set exact row heights for rows `1:12`, including row 1 `24 pt`
- Create the exact audit delivery files under `/tmp/helloworld\_office/`:
- Save the workbook when finished.

Linux-Thunderbird Calendar

Task

task_id:linux.cross_app.thunderbird_calendar_add_coffee_cart_event_easy

Platform: Linux

App: Thunderbird Calendar

Task instruction

In QuickShop, the user is already signed in. Complete the shopping and calendar follow-up flow:

- Search for `Mountain Isle Pour-Over Coffee 20 Pack`.
-
- Save the calendar event.
