

Windows-Wireshark

Task

task_id:wireshark.open_and_filter_20260503
Platform: Windows
App: Wireshark

Task instruction

In Wireshark (already showing "C:\Users\User\Downloads\sample.pcapng"), apply the display filter "http" and save the displayed (filtered) packets to a new file called "http_only.pcapng" in the same Downloads folder.

Windows-VS Code

Task

task_id:vscode.disable_minimap_enable_autosave_20260503
Platform: Windows
App: VS Code

Task instruction

In Visual Studio Code, open the user settings JSON and update it so that the editor minimap is disabled and Auto Save is set to afterDelay. Save the settings file and leave VS Code open. You must use Visual Studio Code only for all file creation and editing; do not use Notepad or any other editor.
