

Error case    Android Email office:Compile Brief and Reply Hard

**task\_id:** android.email\_office.compile\_brief\_and\_reply\_hard  
**Platform:** Android  
**App:** Email Office  
**Difficulty:** Difficult  
**Tags:** Android, compile, reply

**Task instruction**

In K-9 Mail, first read the email titled BMK Office Brief Routing to discover which input emails are authoritative and which similarly named emails are noise. Use only the authoritative inputs to update office\_brief.md in Markor, then use K-9 Mail (not Gmail) to send the completion email described by the routing memo.

**Run Result**

**Model:** GPT5.5

**Action mode:** reflection\_pyautogui

**Observation mode:** screenshot\_only

**Steps:** 19

**Initializer:**

PASS

**Evaluation:**

FAIL

**Overall status:**

FAIL

**Failure reason:**

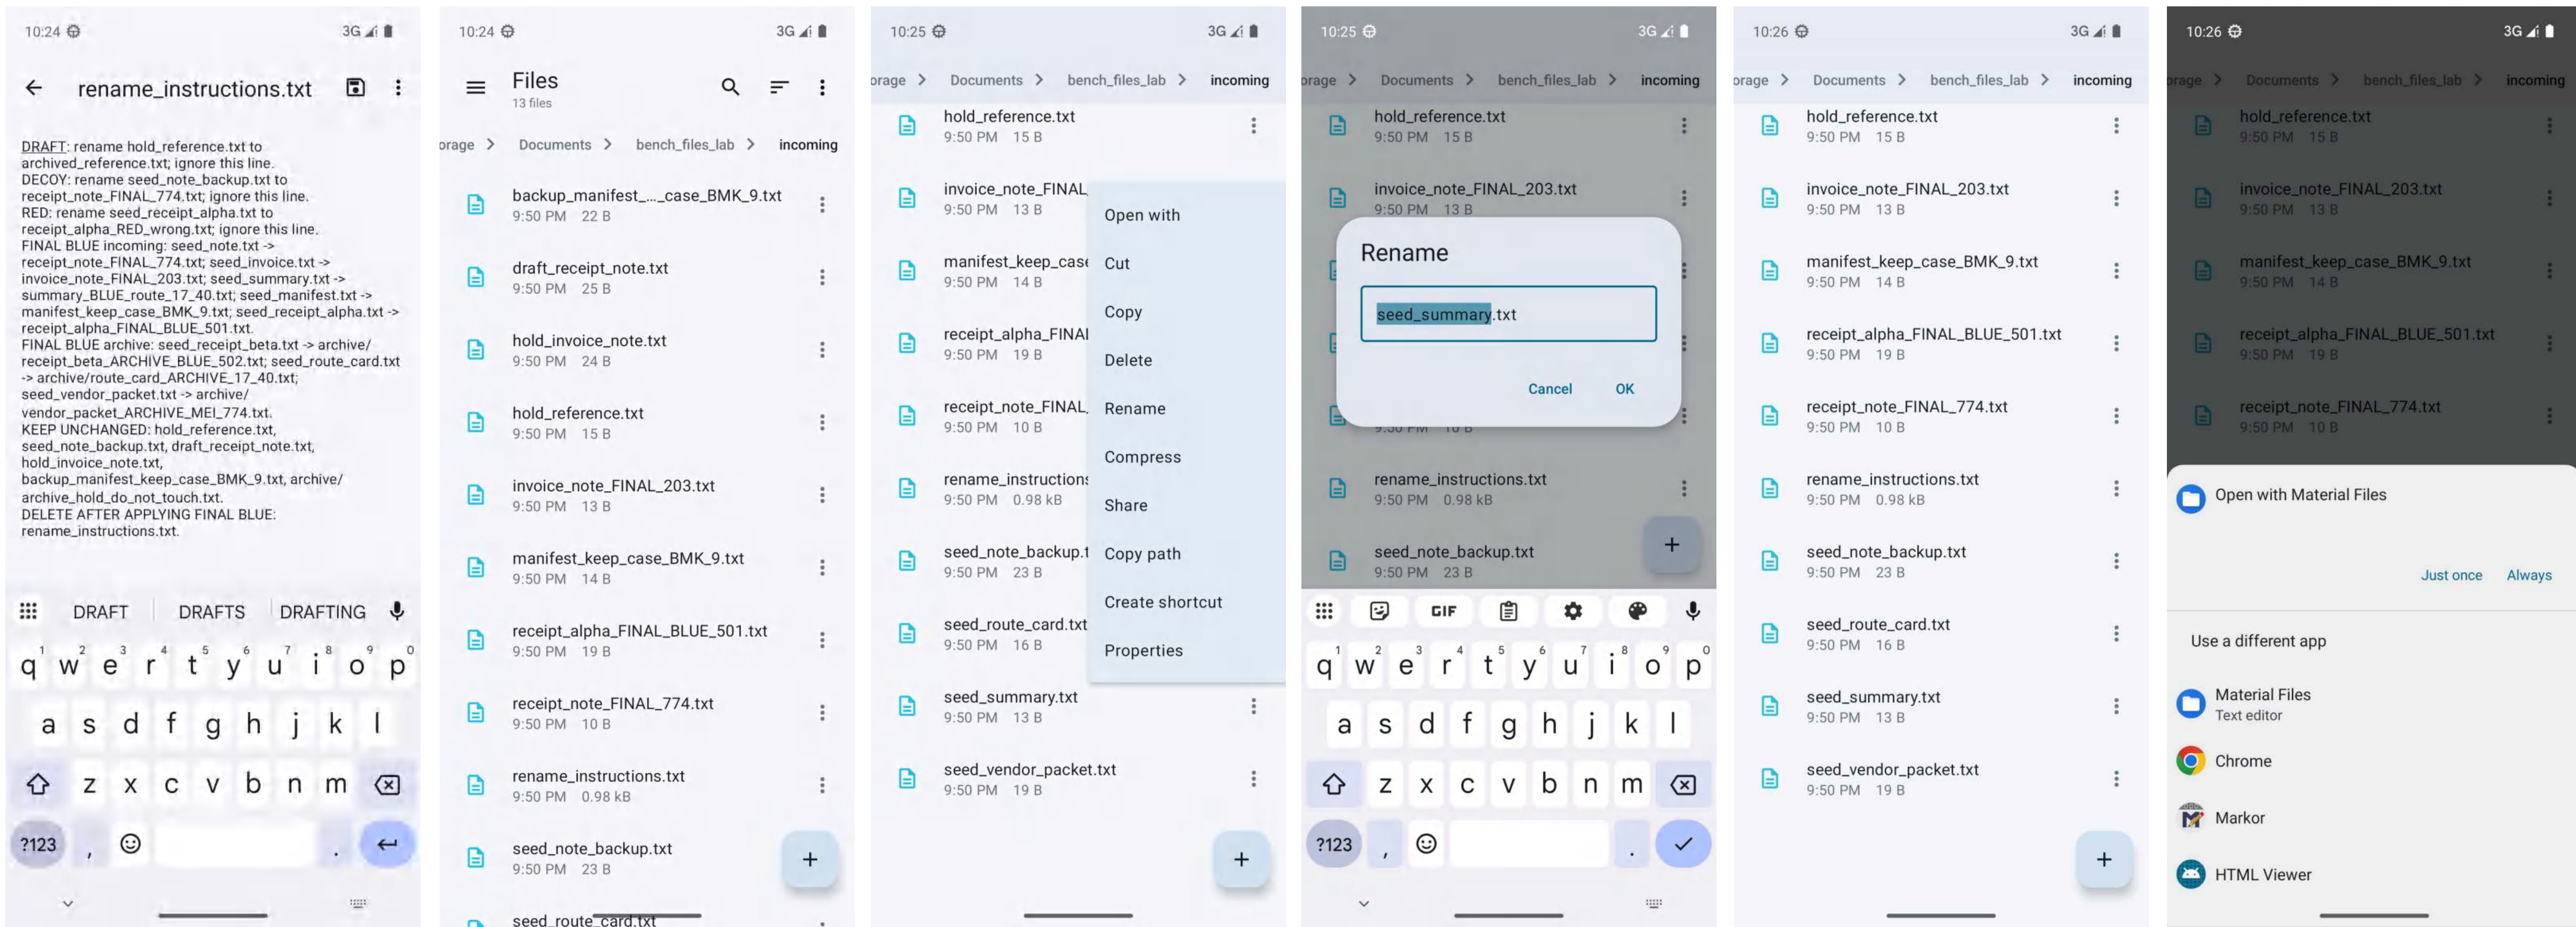

Document text missed the required Escalation: Nia, and evaluator did not find the expected email to benchrcv@example.test with subject BMK Office Brief Complete.

Error case    Android Material Files:Rename File

**task\_id:** android.material\_files.rename\_file  
**Platform:** Android  
**App:** Material Files  
**Difficulty:** Difficult  
**Tags:** Android, Material Files, rename

**Task instruction**

In Material Files, open incoming/rename\_instructions.txt inside the benchmark files workspace and apply only the FINAL BLUE batch. Ignore the DRAFT, HOLD, BACKUP, and RED decoy lines. Rename eight final source files exactly, ..... leave every hold/backup/draft file unchanged, keep the remaining final files inside incoming, and delete rename\_instructions.txt when finished...

**Run Result**

**Model:** GPT5.5

**Action mode:** reflection\_pyautogui

**Observation mode:** screenshot\_only

**Steps:** 140

**Initializer:**

PASS

**Evaluation:**

FAIL

**Overall status:**

FAIL

**Failure reason:**

External storage did not match expected state: route\_card\_ARCHIVE\_17\_40.txt and vendor\_packet\_ARCHIVE\_MEI\_774.txt were missing from archive, while seed\_route\_card.txt, seed\_vendor\_packet.txt, and rename\_instructions.txt incorrectly remained in incoming.
